Call For Paper

Organizing Committee Honorable Chairs Chung-Nan Lee, National Sun Yat-sen University, Taiwan Steering Chairs Chun-Wei Tsai, National Sun Yat-sen University, Taiwan Jong-Hyook Lee, Sejong University, Republic of Korea General Chair Ming-Shen Jian, National Formosa University, Taiwan Program Chairs Jimmy Ming-Tai Wu, National Kaohsiung University of Science and Technology, Taiwan Local Arrangement Chairs Yao-Chung Chang, National Taitung University, Taiwan Publicity Chairs Ming-Yi Liao, Southern Taiwan University of Science and Technology, Taiwan Financial Chair Mu-En Wu, National Taipei University of Technology, Taiwan Web Chair Cheng-Chung Kuo, Southern Taiwan University of Science and Technology, Taiwan	Introduction In recent years, numerous studies on deep learning and intelligent systems have demonstrated the potential of artificial intelligence technologies, making the development of an effective and efficient artificial intelligence method for improving the performance of an intelligent system a pressing issue. In addition to developing more relevant supervised/unsupervised learning algorithms to improve the performance of an intelligent system, researchers from a variety of disciplines are interested in using cloud computing and GPU technologies to increase the performance of such systems. The application of these technologies to an internet of things system to make it "smart" or even "intelligent" is an emerging application. These growing intelligent applications can also be found in data mining, networking, network security, smart cities, AR/VR, and a variety of other everyday applications. The ICEA 2026 provides a forum for international scholars to share their research findings, experiences, and perspectives on intelligent computing and other related developing applications. This conference emphasizes all the latest advancements in a holistic paradigm that highlights the developments in intelligent computing search algorithms, systems, and applications. Topics This conference will concentrate on intelligent computing technologies and applications, including smart network, smart home, smart city, industry network, online social network, internet of things, network security, and big data, AR/VR among others. Among the topics of interest are (but not limited to): <table><tr><td>✧ Machine Learning</td><td>✧ Mobile Computing</td><td>✧ Big Data</td></tr><tr><td>✧ Deep Learning</td><td>✧ Intelligent Networks</td><td>✧ Security and Privacy</td></tr><tr><td>✧ Metaheuristic Algorithms</td><td>✧ Industrial Internet</td><td>✧ Smart Home and Smart City</td></tr><tr><td>✧ Data Mining</td><td>✧ Cloud/Edge Computing</td><td>✧ Expert Systems</td></tr><tr><td>✧ Intelligent System</td><td>✧ Intelligent of Things</td><td>✧ Information Retrieval</td></tr><tr><td>✧ Augmented Reality</td><td>✧ Virtual Reality</td><td>✧</td></tr></table> Important Dates <table><tr><td>• Submission Due Date:</td><td>August 31, 2026</td></tr><tr><td>• Notification of Acceptance Date:</td><td>October 1, 2026</td></tr><tr><td>• Final Paper Submission Date:</td><td>October 14, 2026</td></tr><tr><td>• Early Registration Deadline:</td><td>November 1, 2026</td></tr><tr><td>• Conference:</td><td>November 19 – 22, 2026</td></tr></table> Submission Authors are invited to submit 4-6 up to 10 page technical papers presenting original, unpublished research, not currently under review elsewhere. 2 page work-in-progress (WIP) works are also accepted. If you wish to submit a WIP work, please include '[WIP]' at the beginning of your paper title. All paper submissions will be electronic, in PDF format. For more details, please see https://icea-conf.github.io/2026/submission/. Paper Publication All papers will be fully refereed and undergo a single-blind review process by at least three referees. Accepted papers will be published in the International Conference Proceedings Series by international digital conference. Please contact ccislab301@gmail.com for any questions related to the conference.	✧ Machine Learning	✧ Mobile Computing	✧ Big Data	✧ Deep Learning	✧ Intelligent Networks	✧ Security and Privacy	✧ Metaheuristic Algorithms	✧ Industrial Internet	✧ Smart Home and Smart City	✧ Data Mining	✧ Cloud/Edge Computing	✧ Expert Systems	✧ Intelligent System	✧ Intelligent of Things	✧ Information Retrieval	✧ Augmented Reality	✧ Virtual Reality	✧	• Submission Due Date:	August 31, 2026	• Notification of Acceptance Date:	October 1, 2026	• Final Paper Submission Date:	October 14, 2026	• Early Registration Deadline:	November 1, 2026	• Conference:	November 19 – 22, 2026
